Desperate Efforts to Prevent Fur ther Breaks Made by

THE COAL STRIKE ORGANIZERS

In Wheeling District-Meetings Held at Moundsville and Glendale Yesterday-A Local Union Organized at Moundsville by Mesars. Lewis and Anderson-Decrease in Shipments from Fairmont. Wheeling Gas Plant Has a Scant Sup-

The feature of the mining strike situaion locally is the desperate effort now being made by the organizers of the Wheeling district of the United Mine Workers to counteract the effect of the refusal of the men employed in the two pany, south of the city, to join the trike, as detailed in yesterday's Intellirencer. The men at Eim Grove came ut with the understanding that the Boggs Run miners would be brought out. This provise also applied in the cases of

This proviso also applied in the cases of the Moundsville and Glendale miners, who recently joined the strikers.

Yesterday morning near the works of the Glendale Coal Company, at Glendale, a meeting of the miners was held and addresses made by Secretary Thomas L. Lewis, of the Ohlo miners; Secretary William Anderson, of the Wheeling district, and Organizer Salisbury. The meeting was attended by thirty-five of the seventy miners employed there. On account of the disappointingly small attendance at the meeting, the organizers did not effect the oring, the organizers did not effect the or-ganization of a local union of the United Mine Workers, the step that was in con-templation, but they did succeed in in-ducing the miners who were present to promise to remain out, notwithstanding

promise to remain out, notwitistanding the action of the Boggs Run men. The operators, however, hope to commence work this morning with the miners who did not attend yesterday's meeting.

Another meeting is to be beld to-day at Glendale and it is thought by the strikers that a union will be formed.

Messrs Lewis, Anderson and Salisbury then proceeded to Moundaville, where a meeting of the miners employed in the Moundsville coal works was held. Thirty-four of the fifty-six men were present. The matter of forming, a local union of the mine workers was presented by the organizers and the vote in favor of that step was unanimous. A few of the terday, and the company anticipates get-ting others to resume to-day. The miners who are out, on the other hand, predict that not a miner will appear in the mine this morning.
On account of the refusal of the Boggs

On account of the refusal of the Boggs Run men to join the strike, there was a break out at Elm Grove yesterday. Ordinarily about 169 men are employed at this mine, but recently, on account of a number of the foreign miners leaving this vicinity, only seventy have been regularly employed. The number of men the company says returned to work yesterday is thirty-three. The company expects a larger force will be at work today.

"MINERS' DAY."

rades Assembly to Meet this Evening to

This evening a special meeting of the Ohio Valley Trades and Labor Assembly will be held at Trades Assembly hall, or Market street, for the purpose of arranging for the Wheeling meeting that is to ing for the wheeling meeting that is to be a part of the general demonstration all over the country in favor of the coal strike, on Thursday, August 5. The as-sembly will appoint committees that will arrange for the meeting, selecting place, appointing chairman and vice presidents and doing the other things that are usual to such an event.

to such an event.

The speakers are to be detailed by President Samuel Gompers, of the American Federation of Labor, and it is not yet known who will address the Wheeling gathering. The local people, however, desire to have President W. D. Mann of the street car workers' union, sen, of the street car workers' union, se-ted for this city and an effort in that irection will materialize probably at to light's meeting of the trades assembly.

THEY QUIT AT 1 O'CLOCK. Hoggs' Run Miners Didn't Work Yester

day-Some Men Stayed Out. The Boggs' Run miners were expect-

d to start up yesterday with all the en at work. At least one-third did not go back. All quit work at 1 o'clock the afternoon. They were very re ent as to their reason for coming out ome intimating that they were forced quit, owing to there being no drivers clear away the coal. But one driver, is said, showed up yesterday, and he it after working a few hours. It was sorted yesterday that all the men me out of the mine after working one , but the report was not correct men worked until 1 o'clock.

e men worked until 1 o'clock.

he Boggs' Run men have been the
dest of any in the district to hanand there is no certainty as to their
ure action. If all of them go to
it to-day their action yesterday goes
mothing, but organizers have not
en up hope of getting them out and
hey age sot in line to-day another.

given up hope of retting them out and
if they are not in line to-day another
strong effort will be made in that direction next week.

The situation at present is encouraging to those having in charge the
Wheeling district. They were somewhat discomfited after the Boggs' Run
meeting, but it is expected that in a few
days every miner in the district will be
out. A strong factor is the increasing
sympathy for the miners, and the
peaceful manner in which the strike is
being carried on wins sympathizers.

Mr. Lewis goes out to Elim Grove this
morning to organize a local union,

SHIPMENTS DECREASE

Not so Much Coal From Fairmont Region as Usual. Last week the number of cars of coal

from Fairmont received over the Baltinore & Ohio at Bellaire, averaged 150 per day. This week, until to-day, the ship lay. This week, until to-day, the ship-nents have averaged 200 daily, but yes-erday there was a big decrease, only thout 100 cars being received. This, owever, may not mean that the output i Fairmoni has been lessened, for some of the coal is being diverted from the ann line of the Haltimore & Ohlo at tenwood Junction, some of it going to takes via the Terminal and Wheeling Lake Erie and by the Wheeling divis-no of the Lating. & Lake Eric and by the Wheeling divis-ion of the Billimore & Ohe to Pitts-burgh, and thence to the lakes over the Pittsburgh & Western.

WHEELING GAS WORKS Is Getting Short on Its Coal Supply and None in Sight.

A few days ago it was announced that the supply of gas making coal at the Wheeling municipal gas works was sufficient to last for at least four weeks. It now develops that the calculation was at fault. Yesterday afterneon the Intelligencer learned that the supply of coal at the gas works is sufficient to last not more than two weeks and possibly only ten days. Naturally, the gas works offi-

might mean the shutting down of the gas plant. The only place where coal sulta-ble for gas making can possibly be ob-tained is the Monongah mines at Fair-ment and it is likely that that company has all the contracts it can supply now. The contract with Henry Floersheim, the Finleyville operator, who has been fur-nishing the gas works with coal, pro-vides that he is not responsible for fail-ure to supply coal when there is a strike on at his works.

J. F. Teasdale, a coal dealer, yester lay sold coal retail for \$1 75 per ton. The price previous to the strike was \$1 40, s difference of thirty-five cents. At first tappears that the miner gets part of the efit of the increase, but as the sold was that which came through the screen, he dug it for nothing. The prof was entirely with the mine operator and the middle man. The diggers have been granted an increase of from fifty-one to sixty cents a ton for coal, over screen.

ABOUT PEOPLE

Strangers in the City and Wheeling Folks
Abroad.
The Wheeling and Bellaire people who

The wheeling and beliate people who went to the Pacific slope a month ago, on the "Golden Gate Special" are returning home. Among yesterday's arrivals were Dr. Charles Frissell and Mr. Louis Welbel, the latter, chemist at the Reymann brewery. The Bellairo the Reymann brewery. The Bellaire excursionists arriving home were Mr Charles Arnold and Misses Kate Rode-Charles Arnold and Misses Rate (Ade-fer, Eliza Lazure, Ada Wyrick, Mary Parks and Maggie Kern. Captain R. S. Irwin, of Wheeling, was on the excur-sion, but has not yet returned.

Egalization and Appeals.

The board of equalizations and ap peals will not conclude its business before next Thursday. Yesterday the board considered the assessments of Madison district, some of the residents of the Garden Spot stating that they were being taxed too high. The bridges across the river were also considered, and it was the general consensus that they were not assessed enough.

One bridge has been assessed at \$61,000 and the other at \$63,000. The board thought this rather low and decided to tax them each \$10,000. The assessment of the Central glass works was reduced from \$30,000 to \$20,000, and the West Virginia Tobacco Company's building from \$40,000 to \$30,000.

To-day the board will take up the Seventh ward applications for changes in assessments, and next week the applications from the Fifth, Sixth and Eighth wards will be considered. eals will not conclude its business be

Inspectors Haller and Kroneweth, e Inspectors Haller and Kronewell, of the city water board, are now at work on their annual inspection of the hyd-rants of patrons of the water works. They will inspect every hydrant in the city and order defective ones repaired. The work of inspection will keep the two busy during the ensuing three months.

Officer Ike Shields, of the Eight. vard, yesterday, left for the interior o ward, yesterday, left for the interior of Marsimil county, incidentally to breathe the country air, but more particularly to master the art of riding a bicycle, which was transported with him. He trusts that no vigilant eyes will watch his attempts to ride, and he has great faith in the farmers to heal his wounds. Since Officers Dudley and Och cut figures on their wheels on the South Side, and Officer Bero acquired fame as a dog-slayer, like thinks he must do something to be in it, hence his latest move.

THERE is no other remdey on earth so simple, so effectual, so natural, in the cure of summer complaint in all its forms, as Dr. Fowler's Ext. of Wild
